

# Gardens In Plain View

Strolls to see front gardens any day of the week!

**WALK, BIKE, OR DRIVE:** ≈4 miles

## The Historic West Village

Both historic Victorian and contemporary Victorian-style homes with old-fashioned country and perennial cottage gardens populate this neighborhood. It showcases prime examples of innovative gardening in small spaces—and City Hall's Art Deco dome lights up the night!

### Look for...

- A** Johnson Park
- B** Hutchinson Technical School
- C** Phoenix Theater
- D** Herman Badillo Community School

### Note

Please enjoy the front yard garden strolls and beautiful landscapes from the sidewalk. In an effort to practice social distancing, we would like to note that side gardens and backyards will not be open to the public this year. Thank you very much for your cooperation.

- Practice social distancing
- Wear face masks as required
- Wear sunscreen
- Stay hydrated
- Wear comfortable shoes
- Wear a hat

Thank you to everyone for participating in this year's Gardens In Plain View! Visit [bcbwny.com/play](http://bcbwny.com/play) for more fun summer activities.

## Black-eyed Susan (*Rudbeckia hirta*)

Black-eyed Susan is an exceedingly common wildflower, in the sunflower family, native to North America. It displays yellow daisy-like flowers with dark brown centers. Other common names for this plant include: brown-eyed Susan, brown betty, gloriosa daisy, golden Jerusalem, English bull's eye, poor-land daisy, yellow daisy, and yellow ox-eye daisy. It is the state flower of Maryland. It is a larval host to the bordered patch, gorgone checkerspot, and silvery checkerspot butterfly species.

---

### What makes a wildlife habitat garden? Look for:

**FOOD:** Native plants provide food eaten by a variety of wildlife. Feeders supplement natural foods. Look for bird feeders, berries, and nuts.  
**WATER:** All animals need water to survive, and some need it for bathing or breeding as well. Look for birdbaths, ponds or water features.  
**COVER:** Wildlife need places to take shelter from bad weather and places to hide from predators or hunt for prey. Look for trees and shrubs.  
**PLACES TO RAISE YOUNG:** Wildlife need resources to reproduce, and to protect and nourish their young. Look for birdhouses.  
**SUSTAINABLE PRACTICES:** Maintain your yard or garden in natural ways to ensure soil, air, and water stay healthy and clean. Look for rain barrels, no pesticide signs, and composters.
